

Helping Aiden fund a Dragon Mobility Power Chair

The Turbo Trust is the charity arm of Dragon Mobility and helps parents and individuals fund the cost of these amazing machines.

Because donations to individuals are not eligible for Gift Aid the Turbo Trust charity is helping individuals raise funds for the many children and adults who need a Dragon Mobility Chair. This means that the Turbo Trust can help turn £100,000 into £175,000 worth of equipment and support using the Gift Aid scheme.

How Corporate Sponsorship can help Aiden

There are 4 main ways your company can help.

1. **Leasing a whole Dragon Chair** through the Turbo Trust – for £300 a month for 5 years your company can show and publicise its commitment to improving the quality of Aiden’s life and the *Tax Man* will treat your charitable donation as if you have paid for the chair outright.
2. **Sponsor outright** and individual element of Aiden’s Chair:

A Powerbase <i>including 5 years warranty and full 24hr technical support</i>	£11,910
Customised Seating <i>tailored to Aiden’s needs and including all adjustments for 5 years as he grows</i>	£4,599
Annual Servicing and Replacement Batteries <i>for Aiden’s chair for 5 years</i>	£2,295
Crash-tested Docking System <i>for safe travel seated in a Dragon chair in an adapted vehicle</i>	£1,150

3. Ask employees to sign up for ‘**Give as you Earn**’ in aid of the Turbo Trust - payroll giving that allows employees to give regularly before tax.
4. Nominate The Turbo Trust as your Company’s ‘**Charity of the Year**’ and hold its team-building events in aid of the Turbo Trust.

Your contribution will help Aiden and others like him to live a more fulfilling life.
